

www.proacttraders.com

I forgot to create my website access per the instructions in the email or the landing page?

(NOTE: If you have a SPAM filtering service it most likely was blocked or is your SPAM bucket. You will need to WHITE-LIST @proacttraders.com)

So here is what you do

- 1) Go here to register: <http://64.13.225.232/user/register>
- 2) You will then **WAIT** for an email from us that says you are approved (this is a manual process and we do eat, play with our grandchildren etc.). Our goal is to get you up ASAP but it could be several hours. You will receive a 1 time temporary password that lets you enter the site. You will be prompted to change the password.
- 3) Once approved and you follow the above instructions, the **RED LINKS** on the website that disallow you from those areas will be removed and you can log into the site. You will have full access to the areas that you are entitled to based on your current level of participation.

Instructions on how to install your Full subscription charts are in the email, on the landing page you are sent to and are on the website under SOFTWARE.
